

MUHAMMED BILAL

UI/UX Designer & Frontend Developer

ABOUT

I am a passionate UI/UX designer and frontend developer with a BSc in Computer Science. Combining technical expertise with creative design skills, I build responsive, interactive web applications using HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS, Git/GitHub, and Framer Motion. Using Figma and Adobe XD, I craft intuitive, visually appealing interfaces that deliver engaging digital experiences
